Powered Air
Purifying Respirator

Powered Air Purifying Respirator

Sundström Safety's powered fan units are designed to give the user the maximum level of protection, comfort, simplicity and cost-effectiveness.

Choose a suitable face piece from a wide range of hoods, helmets, face shields, half- and full face masks.

For particles
and gas

SR 500 Fan Unit

For particles and gas.

SR 500

Art no. H06-0112

SR 500 HD

Art no. H06-0112HD

Our Fan unit SR 500 is comfortable, durable and with its advanced technology gives the user protection against harmful particles as well as gases and vapors.

Automatic air flow control gives the user a safe use with the highest protection level. The same control is used for starting, stopping and selection of operating status.

All our fan units will alarm the user if any obstruction occurs.
